Greeting

IFA 2016 Fistball U18 World Championship Nürnberg/Germany

Germany is having the honour and task of hosting the IFA 2016 Fistball U18 World Championship. In the name of the German Fistball League I warmly welcome the participating nations, the trainers, referees, honoured guests, benefactors and sponsors, the representatives of politics, economy and media and, most of all, the spectators, guests and fans to this international top event.

The rapid development of fistball in the last few years – especially of youth fistball – is providing an increasing tension, dynamic and athletics on a high level. Everyone interested in sports should convince themselves of this valuation by visiting the World Championship in Nürnberg.

The days of the World Championship in Nürnberg are promising a big tension among the participating nations. Will Germany hold the titles? How will the leading South American teams present themselves? What will we be expecting from the newcomer from the USA?

Two years ago Germany won the titles in Brazil. To be at the top once more our teams need the maximum support!

A World Championship requires enormous work, during the preparation as well as the implementation. To guarantee that the days of the World Championship will be an unforgettable experience for all persons involved, the local organizing committee of the club TV Eibach 03 Nürnberg under the guidance of Andreas Schröder did not spare effort and struggle. At this point I would like to thank everyone involved for their tireless commitment.

Of course I would also like to thank all sponsors without whose support such an event could not be realized.

To all spectators I wish exciting and high-quality fistball within the framework of an inspiring World Championship.

Ulrich Meiners
Präsident DFBL
